

# NOW IS THE TIME

## THINKING ABOUT IMPROVING YOUR HEARING?

**Take advantage of this limited, one time offer.**

**CURVE** is the latest in open ear digital technology, and is a perfect option for people with mild to moderate hearing problems. The economy affects all businesses, even the hearing care business.

We have just been offered the lowest price we have ever seen for these sophisticated digital hearing instruments, and we would like to pass along those savings to you.

The **Curve M1** offers all the features expected in a digital hearing aid, including dynamic noise reduction, feedback canceling circuitry, and flexible programming.

For a limited time, we are offering a pair of **Microtech Curve M1's** for **\$1998.00**. That price includes two hearing instruments, fitting sessions to set the hearing aids to your needed and desired hearing levels, and a one year warranty. We have never been able to offer this level of technology at this price before.

Call today to set your appointment for a free demonstration of **Curve Open Ear Technology**
